

INTENSIVE SERIES

LET'S MAKE THIS SUMMER COUNT

Zearn Math is a nonprofit math learning platform that your child uses during the school year to complete online math lessons. Our school is using Zearn digital lessons over the summer to keep up the momentum in math learning.

Throughout their math learning on Zearn, your child will:

Explore the important math ideas of their grade

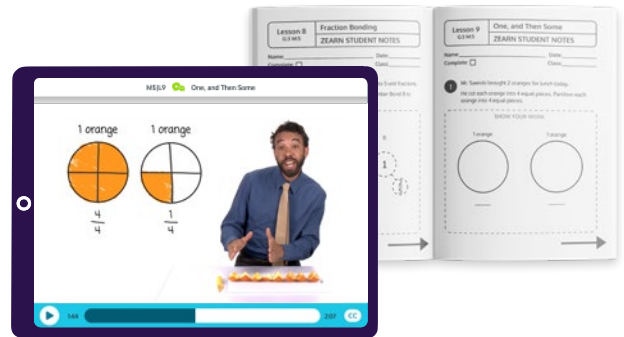

Make sense of math with pictures and interactive models

Solve math problems in lots of different activities

Zearn's Summer Intensive Series include targeted digital lessons that cover the key math concepts that will set students up for success in grade-level math learning this fall. Each lesson takes about 30 minutes to complete.

Zearn is available online 24/7. Your child can get started by logging into their school-issued Zearn account.

Interested in learning more about Zearn's Summer Math Intensive Series?

Visit our summer math page to check out recommended lessons for every grade.

Zearn is the 501(c)(3) nonprofit educational organization behind Zearn Math, the top-rated math learning platform used by 1 in 4 elementary-school students and by more than 1 million middle-school students nationwide. Everything we do is driven by the belief that every kid is a math kid.

WHAT ARE ZEARN DIGITAL LESSONS?

Your child will use Zearn Math's digital platform to complete online math lessons that are engaging and supportive. In each digital lesson, students will:

Warm up

Opening activities give students a chance to flex their math skills and get ready to learn.

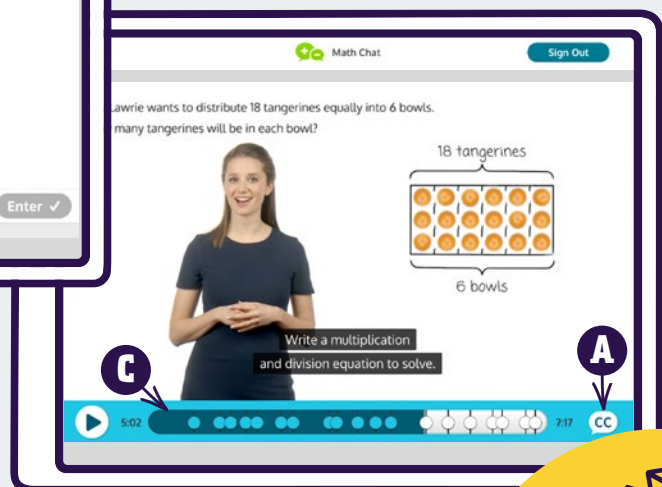

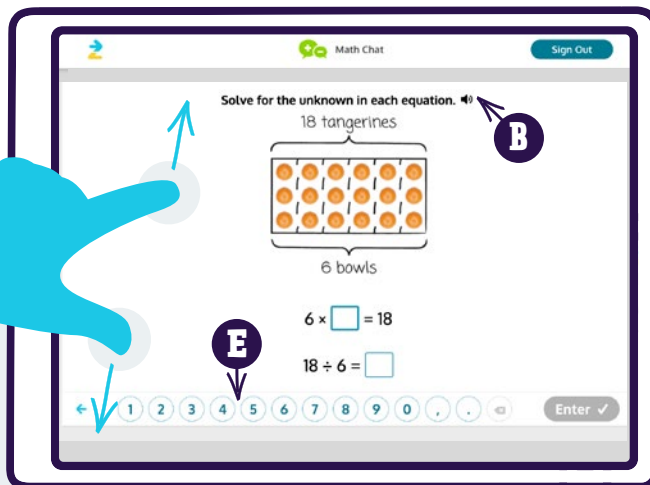

Learn something new

Students explore math concepts with real teachers, solve math problems online and in their notes, and receive real-time feedback.

Show what you know

Finally, students demonstrate what they've learned in the Tower of Power. If students get stuck, Zearn breaks down the problem step-by-step and gives them a chance to try again.

SUPPORTING ALL LEARNERS

Zearn Math digital lessons have built-in features and supports to ensure all students can engage and succeed in math learning. These features include:

A

Closed captioning
in every lesson

B

Audio supports
like text-to-speech
for every problem

C

Ability to rewind
to rewatch any part
of a digital lesson

D

Zoomability to
view text and
images closer up

E

**On-screen
keypad**

supports for multilingual
learners.

Z EARN HELPERS

You can have a big impact on your child's math learning. Here are some ideas to encourage your child's success with Zearn Math.

TOUGH PROBLEMS!

Help your child persevere by asking:

**"Read the problem aloud again.
What are they asking you to solve?"**

**"Are you stuck on this problem?
It's okay if you do not know the answer.
Make your best guess and Zearn will help."**

**"Have you rewatched the part of the lesson
with the teacher? It's okay to watch it again!"**

**"It's okay to make a mistake.
That's how our brains get stronger."**

Zearn Math is designed for kids to work through each 30 minute lesson on their own. Your child will learn with an on-screen Zearn teacher and solve math problems in lots of different activities, all with built in math help.

MOTIVATE AND CELEBRATE

Be your child's cheerleader! Try asking:

**"What is your lesson goal this week?
Let's track it together."**

**"I saw you working hard!
Let's celebrate your new badges."**

**"Can you show me what strategies
you're working on?"**

**"Which teacher was in your video
lessons today? What did they talk about?"**

COMPUTER GLITCHES

Students likely know their way around a device. But they may need help:

**"The next activity is at the top of your
screen. Click the start button."**

**"The internet is slow right now so your
work might not have saved – enter your
answers again."**

**"Everyone has computer issues sometimes.
Log out and back in again, or restart
the computer."**

"Try refreshing the browser."
